THE HONORABLE EARL A. RINKER, III
COUNCILOR, FOURTH DISTRICT

THE HONORABLE BERNARD A. STREETER, JR.
COUNCILOR, FIFTH DISTRICT

INSURANCE DEPARTMENT
LOUIS E. BERGERON, COMMISSIONER

NEW HAMPSHIRE INSURANCE DEPARTMENT

ORGANIZATION AND FUNCTION

The New Hampshire Insurance Department was established in 1851, the first insurance regulatory agency in the United States. The rights and responsibilities of the Insurance Department are codified by the provisions of RSA 400-A of the Insurance Laws. By the provisions of this Chapter, the Insurance Commissioner is charged with all duties pertaining to the enforcement and execution of insurance laws of the State of New Hampshire. He is responsible for the collection of premium taxes and fees; and the regulation of all segments of the insurance industry as it performs in the marketplace, particularly in the treatment of policyholders and claimants. He must be continually vigilant in ascertaining that insurance rates are neither excessive, inadequate, nor unfairly discriminatory.

Annual Report - 1993

In Fiscal Year 1993, the Insurance Department operated its affairs at 89% of its total operating budget with just 45 full-time classified and unclassified employees at the Department (Appendix I & II). At the same time, the Department collected revenues totaling $38,469,639 in taxes, fees and registrations (Appendix III).

A brief summary of the activities of the various Divisions within the Department follows:

During Fiscal Year 1993, the Life, Accident & Health Division processed 3,058 company rate and form filings, while the Property & Casualty Division processed 2,569 company rate and form filings.

A total of 18,304 new and renewal licenses were issued by the Licensing Division; just over one half of the total licenses on file at the Department. Of this figure 15,012 were issued to new agents, brokers and co-brokers. Nine hundred eighty-one (981) insurance companies obtained new or renewal licenses. The remaining 2,311 licenses were issued as renewal licenses for consultants, co-consultants, agents, adjusters, brokers, co-brokers, surplus lines, home warranty, road and tourist rating organizations and premium finance companies after verification of their completion of the Continuing Education requirements.

In 1991 we became affiliated with ITC (Insurance Testing Corporation) of St. Paul, Minnesota for the testing administration of all of our licensing examinations. From July 1, 1992 through June 30, 1993, 1,660 candidates were tested for licenses. One thousand two hundred sixty-one (1,261) individuals were tested in the life, accident and health area; 272 candidates were tested for property and casualty lines; and, 127 candidates sat for limited lines licenses.

The above figures represent a slight decrease in the number of candidates tested over the previous Fiscal Year.

Fiscal Year 1993 also saw the fifth deadline of the "Continuing Education Requirements for Licensed Agents, Brokers and Consultants," Insurance Regulation 1302. All resident insurance agents whose licenses came up for renewal on June 14, 1993, were required by this regulation to have submitted to the Insurance Department certification that they had completed 30 hours of approved continuing education courses 60 days prior to renewal.

The Insurance Commissioner took action to revoke the licenses of those agents who did not complete their continuing education requirements subsequent to the June 14th deadline.

Our Consumer Services Division responded to 1,313 formal complaints during Fiscal Year 1993. Of these, 453 dealt with life, accident and health insurance; while 860 were property and liability/casualty complaints. These numbers are based upon written complaints that were received and acted on by the Department. They do not take into account the scores of questions, problems and complaints handled via the telephone which did not merit submission of formal materials; or reflect those calls handled directly by the Commissioner, the Assistant Commissioner or others within the Department.

The toll-free consumer telephone line generated a total of 991.7 hours of use by consumers who called with insurance problems or general informational questions. We were able to document 14,020 phone calls on the toll-free line, and approximately 65 calls per day on the regular incoming phone lines.

In January 1992, the Department began tracking the dollar amounts realized by the consumer on claims in which the Department became involved. For the period July 1, 1992 to June 30, 1993, it totaled $1,533,173.15. It must be pointed out, however, that it is impossible for us to determine what impact on that dollar amount our intervention had, as it is possible that some claims were in the process of resolution through normal channels.

The State of New Hampshire Insurance Department currently licenses 829

insurance companies to conduct business in the State, of which 48 are domiciled in New Hampshire. Approximately 364 of the companies are licensed to write life, accident and health insurance, while the remaining 465 companies are licensed in the various property and casualty lines.

We licensed 18 "new-to-New Hampshire" companies during Fiscal Year 1993. Four (one a domestic) were life companies, and fourteen were property and casualty companies (Appendix IV). Nine companies withdrew from New Hampshire for various reasons, including dissolution, merger/consolidation, or surrendering license.

An alphabetical listing of all of New Hampshire's domestic companies with asset and liability information for year-end 1992 can be found in Appendix V. The same information is provided for all companies licensed in New Hampshire in Appendix VI.

While New Hampshire does not license surplus lines companies, it does, pursuant to RSA 405:26, qualify unauthorized insurers as eligible surplus lines carriers in the State. As of June 30, 1993, 28 unauthorized insurers qualified as eligible surplus lines carriers (Appendix XII).

During the past Fiscal Year we completed indepth triennial financial examinations of the following domestic companies: Association Canado-Americaine, Christian Mutual Insurance Company, The Hanover American Company, Hanover Insurance Company, Healthsource Insurance Group, Inc., Healthsource New Hampshire, Inc., Home Indemnity Company, Home Insurance Company, U.S. International Reinsurance Company, Matthew Thornton Health Plan, Inc., Manufacturers & Merchants Mutual Insurance Company of New Hampshire, Capital Fire Insurance Company, Phenix Mutual Fire Insurance Company, New Hampshire Insurance Company, American Global Insurance Company, New Hampshire Indemnity Company, Granite State Insurance Company, Grange Mutual Insurance Company, Merchants Insurance Company of New Hampshire, and Underwriters Reinsurance Company.

Financial examinations currently in progress include: Concord General Life Insurance Company, Concord General Mutual Insurance Company, Sunapee

Mutual Fire Insurance Company, The Continental Insurance Company, Main Street America Assurance Company, National Grange Mutual Insurance Company, Excelsior Insurance Company, The Netherlands Insurance Company and Peerless Insurance Company.

Market Conduct examinations completed by the Insurance Department for the period ending June 30, 1993, include: National Grange Mutual Insurance Company, Main Street America Assurance Company, Commercial Union Insurance Group, Metropolitan Insurance Group, CIGNA Insurance Group, Kemper National Insurance Company, Lumber Mutual Insurance Company, Maryland Casualty Group, Prudential Property & Casualty Company, State Farm Insurance Group, and Worcester Insurance Company.

The Department currently has the following market conduct examinations underway: The State Farm Insurance Group, Hartford Insurance Company, ITT Hartford Insurance Company, Allstate Insurance Company, Travelers Insurance Group, Employers Insurance of Wausau A Mutual Company, and Employers Life Insurance Company of Wausau.

During the last Fiscal Year, the mechanism, administration and costs of workers' compensation insurance in New Hampshire were issues at the forefront. The Insurance Department took the lead in a series of initiatives, as well as participated in the efforts of Governor Merrill and the Labor Department to make improvements to all facets of the workers' compensation system.

In response to Departmental concern over the quality of service provided by the workers' compensation residual market servicing carriers, and the increasing residual market deficit, several changes were implemented in the servicing carrier system. Rather than utilizing the services of multiple carriers around the country, the Department determined that it would be more cost effective to use a New Hampshire based single servicing carrier for the residual market. To that end independent proposals for service were solicited from all of the licensed workers' compensation carriers in New Hampshire, based upon criteria determined by

the Department to be important and intrinsic to the system and the reduction of the skyrocketing costs. Six carriers responded with proposals. Review of the proposals proved that a single servicing carrier would best suit the needs of New Hampshire. Liberty Mutual Insurance Company, in a joint venture with Healthsource, Inc. was chosen to act as that single servicing carrier. In this arrangement Liberty Mutual provides the insurance services segment, while Healthsource provides the managed care component.

In response to the National Council on Compensation Insurance's rate request of July 1992, after public hearing and intensive review, the Commissioner approved an 18.3% increase in rates to be effective December 1, 1992. This 18.3% increase included a 10% surcharge for employers in the assigned risk pool.

On June 15, 1993 NCCI filed another rate request for 37.2%, with a 20% surcharge for assigned risk. As of the end of the Fiscal Year no action had been taken upon this request.

The Insurance Department took a very active role during the 1993 Legislative Session. We initiated numerous pieces of legislation. And, as previously mentioned, also participated in and fully supported Governor Merrill's initiatives to reduce the soaring costs of workers' compensation insurance in New Hampshire, specifically Chapter 311, (HB 606) providing for Managed Care, and Chapter 357 (HB 164) relative to system improvements.

Some of the more significant laws passed include:

. the establishment of a fraud unit within the Insurance Department that will administratively investigate allegations of insurance fraud and develop and implement programs to prevent insurance fraud and abuse (Chapter 357).

. the strengthening of anti-fraud provisions in the workers' compensation law; and a civil immunity provision for those who report or furnish information concerning any activity that may

constitute insurance fraud (Chapter 239).

. a Third Party Administrator law requiring the licensing and financial accountability of companies conducting business as TPA's in New Hampshire (Chapter 253). This was a Department initiated bill.

. the licensure or registration, with the Department, of all entities performing utilization review services within the State (Chapter 249).

. a provision enabling charitable institutions to be the owner of and beneficiary of life gifts (Chapter 207). This law was initiated by the Department.

. technical corrections to the insurance law regarding accreditation that give additional investment authority to domestic companies upon Departmental approval; set standards and requirements for the distribution of extra-ordinary dividends; changes the provisions of the current dividend and distribution law; fixes quantitative limitations on investments; and amends the reinsurance intermediary law (Chapter 254). These provisions were Department initiated to maintain NAIC accreditation.

. the establishment of extra-territorial auditing procedures for workers' compensation policies and provisions for audited premium returns (Chapter 210). This was a Department bill.

. a two-day recission provision for contracts entered into between insureds and public adjusters, and continuing education requirements for adjusters (Chapter 317). These provisions were Department initiated.

. standardization of insurance claim forms for medical benefit claims (Chapter 127).

. a provision that a maternity benefit rider be made available at the insured's request if not covered under the policy (Chapter 196).

. the addition of a section providing for pro-rated refunds of premium upon cancellation of accident and health policies; and the inclusion of an incontestable provision to the HMO statute for conformity with other accident and health statutes (Chapter 167). These provisions were initiated by the Department.

. a requirement that insurers provide insureds with a statement reflecting the dollar amount of allowable benefit for medical procedures upon request (Chapter 102).

. technical changes to the small employer insurance law that provide eligibility for continued participation in a group plan; provide the 39-week extension coverage provision; and prohibit discrimination in group or blanket policies on the basis of health or condition (Chapter 162).

Additionally, the Department will actively participate on two committees and one board created by the Legislature:

. to study mechanisms of funding and providing long-term care for the elderly (Chapter 27).

. to study and identify all factors tending to drive up the cost of rates for workers' compensation in the state (Chapter 357); and

. to participate, as a board member, on the newly established healthy kids corporation (Chapter 312).

The Insurance Department anticipates that the upcoming 1994 Legislative Session will include consideration of numerous insurance-related bills. Workers' Compensation and Health Care insurance will no doubt be areas of concern to the law makers. Escalating insurance

costs and the complexity of the issues involved will demand tremendous effort on the part of the Legislature to generate novel and effective solutions to the problems faced in these areas.

The foregoing report is meant as a very brief summary of the activities of the Department during the past Fiscal Year. We will continue to strive to be effective in our role as regulators; guaranteeing the solvency of the insurance companies under our jurisdiction, and in so doing, protecting the interest of the insurance-buying public of the State of New Hampshire. And, we will continue our support of the passage of meaningful legislation which will enhance our ability as regulators and provide continuing quality control over the services and products being offered to our citizens.

In closing, I would like to thank the employees of the Insurance Department for their continuing efforts, ability and dedication, without which the accomplishments achieved by this Department would not be possible.
